

Modular Holding Bin

Prince Castle's latest holding innovation provides operators the greatest flexibility for menu variety and kitchen design. Modular individually heated bins controlled by a master base, allows the system to expand horizontally and vertically, distributing power and communications to set and maintain desired serving temperatures. Modular bins can be configured and expanded as your business grows, controlling safe and consistent heating temperatures. Designed to ensure customers are always served the highest quality meals.

Product Features

- Configurable (horizontally and vertically) to tailor to the specific configuration needs
- Expandable by one unit increments (horizontal and/ or vertical) for existing and future product expansion
- Units may configured up to 5 wide and 5 high providing total installation flexibility
- Expands up to 8 total modules on a single 110-240v circuit
- Independently customize each modules product temperature and time for a wide variety of products and multiple day parts
- PC application provided for simple menu programing and uploads through the easily accessible USB port
- 1 year - Parts and Labor Warranty
