

TRACKER™ TIMER

Tracking what's cooking couldn't be easier

Features and Benefits

Easy to use

- Ensures food quality and safety with precise timing
- Increases product yields, reducing cost of goods sold
- Delivers consistent product quality, enhancing the guest experience
- Large, easy-to-read green LED display allows across-the-kitchen monitoring

Simple to program

- Pre-alerts with adjustable beep patterns for mid-process action reminders
- Can count up or down
- Displays can show time or product names
- 6 unique alarm sounds and 3 volume levels
- 24-hour technical support
- Optimal 120V power cord – no bulky power brick

Reliable and Customizable

- Electronic precision that's built to last
- Track multiple batches
- UL, ETL, CE and RoHS compliant
- Service Replacement and Exchange program
